SCREENING FACTORS

- A. Applicant Screening Listing and Ranking System.** In order to ensure that the NNVHP services veterans with the most critical housing needs, a screening and ranking system has been established. The cumulative total of points determines the applicant's position on the waiting list. Ties are broken by the chronological order of application (date in which the application was received).

Qualification criteria are summarized below. When a veteran completes the application form, they will be asked a series of questions that determine their qualifications relative to the selection criteria. It is very important that veterans (demonstrate understanding of) read and understand the entire application before submitting their screening packet. The local agency office will be available to answer any questions the applicant may have.

Once on the waiting list a veteran may be called in to update their application once a year. Failure to update the application as requested may result in the Veteran being removed from the waiting list. During the update process the information on the application will be verified.

An Eligibility Criteria & Preference Rating Sheet shall be applied to the Navajo Nation Veterans Housing Program.

SECTION IV.

Navajo Nation Veterans Administration
Veterans Housing Program
Housing Action Plan

Section 1. Findings

CJY-55-18, An Act Relating to the Establishment of the Navajo Housing Program within the Navajo Veterans Administration, sought to provide “services to Navajo Nation veterans [including] housing programs. It was deemed “necessary that a housing program be created within the Navajo Nation Veterans Administration.”

CJA-03-16 states that it is the responsibility of the Navajo Nation Veterans Administration to effectively and efficiently provide services, including, but not limited to a Veterans Housing Program. To that end, the Navajo Nation Veterans Administration is charged with the management of and is responsible for the day-to-day operations involved with the implementation of the Navajo Nation Veterans Administration Veterans Housing Program.

BFAU-24-17 found that due to inadequate management of the program and improper oversight of the work being performed in the past, houses that were constructed under years 1 & 2 failed to meet the needs of the veterans who were to occupy them.

CS-48-13 found that it was in the best interest of the Navajo Nation and the Navajo people to amend the Navajo Nation Veterans Trust Fund in order to provide equal distribution of the annual comprehensive budgeted amount between the Navajo Nation Veterans Trust Fund and the Navajo Nation Veterans Administration to provide for veterans’ housing for each of the five (5) agencies. The five (5) agencies were to receive an equal share of that amount for the construction of up to fifteen (15) homes equitably in each of their respective agencies using all possible assistance program funds that such veterans may qualify for to construct as many homes as possible and provide minor home renovations and repairs for Navajo Veterans.

Section 2. Purpose

The purpose of the Navajo Nation Veterans Housing Program (NNVHP) is to identify, assess and prioritize the housing needs of Navajo Veterans. The NNVA shall monitor, advocate, promote, and administer NNVA efforts towards housing needs of Navajo Veterans. The NNVHP is to provide and assist with the construction of homes, consistent with applicable industry standards, for Navajo Veterans. Such consideration of homes shall be for qualified Navajo Veterans. These homes are built and provided to the veteran with the intent and understanding that these homes shall remain the property of the qualified veteran.

Section 3. Objectives

The objectives of the Veterans Housing Program are to: 1) Reduce the high number of homeless veterans; 2) Reduce the high amount of substandard and dilapidated veteran housing; 3) Reduce the high amount of overcrowded housing conditions; 4) Create pride in home ownership for the veteran recipient and their family; 5) Create jobs for veterans through home construction and renovation thereby reducing the unemployment rate among veterans.

Section 4. Authority

The Veterans Housing Program (VHP), through the Program Manager, is authorized to prioritize the construction of housing based on an approved application screening process, without regard to applicant geographical location, so long as that location remains within the boundaries of the Navajo Nation.

The VHP, through the Program Manager, is additionally authorized to prioritize the renovations and/or improvements to veterans housing based on an approved application screening process.

The Program Manager is further authorized to provide program funds in the form of grants to eligible veteran applicants wishing to obtain down payment assistance for the purchase of a new home.

Section 5. Program Personnel

The VHP shall be administered by the Program Manager. The NNVA shall retain staff suitably trained to perform specified duties under the VHP. Such positions deemed necessary to properly administer, implement, and execute the program shall be funded using program funds. Such positions shall be annotated in the NNVA Plan of Operations. A Program Supervisor 1 position shall be responsible for the daily operations of the program, managing personnel necessary to administer the program, and coordinating with Navajo Nation Divisions, Departments, Programs, and Entities to help ensure the success of the VHP. This position shall be assisted by one (1) Senior Housing Specialist and five (5) Housing Specialists, with one located at each agency office. The Housing Specialists shall be responsible for assisting Veterans within their agency in applying for housing assistance by providing education on the policies and procedures and assist the Veteran with the completion of application packets. Other positions shall be retained as appropriate to perform specialized duties and responsibilities under this program. The NNVA shall document efforts taken to provide veteran preference in employment for these positions.

Section 6. Eligibility Criteria

Navajo veterans who are determined to be homeless, who possess an honorable discharge, a valid homesite lease, or equivalent shall be considered eligible to apply under the guidelines and approved policies for this program. The Navajo veteran must submit a local Veterans Organization supporting resolution. Supporting documentation shall be provided upon request by the NNVA. Those documents may include, but not be limited to: DD-214 or discharge certificate, valid homesite lease (or equivalent), VA disability rating (or other disability rating documents), and family composition paperwork (birth certificates, marriage license), CIB.

Section 7. Audit Findings & Corrections

1. NNVA was unable to show exactly how money was spent on material for homes under year one of the program because of poor supporting documentation.
 - a. Moving forward, all work on homes under the VHP, as well as homes qualifying for major or minor improvements, repairs, or renovations will be performed by licensed contractors. Contract documents will be maintained by the Program Supervisor. Payments for completed work will be recorded by the Program Supervisor and OOC Contract Accounting and Accounts Payable.

2. Employee application files were incomplete and qualified employees were not hired.
 - a. NNVA staff are required to have a personnel file located in the Central Office, managed and maintained by the office staff. Moving forward with the program, qualified contractors will be responsible for recruiting and training veteran candidates, and providing documentation detailing their efforts and results towards that end.
3. Contrary to the intent of the VHP, non-veterans were hired.
 - a. The Navajo Nation, the Veterans Administration, and qualified contractors can and will advertise open positions with veteran preference. If those positions do not offer proper incentives such as competitive wages, training, and benefits, then the positions are not appealing to veterans. Additionally, if the veterans are suffering from medical conditions, those conditions could prohibit them from being able to perform the demanding tasks involved with the construction of a home. Therefore, it is not reasonable for the program to assume, nor require, that all open positions be filled by veterans.
4. The VHP did not have supporting documentation showing that only eligible veterans were assisted through the program, and in some cases, people that were not eligible received a home.
 - a. Moving forward, under the new guidelines of the VHP Housing Action Plan and the Housing Policies, all candidates currently awaiting approval will be required to be rescreened prior to having a home awarded. Future applicants will be able to apply and be screened using these same guidelines. The focus of the program was, and always will be, to provide new homes to homeless veterans, and to provide renovations and repairs to qualified veteran applicants.
5. The VHP exposes itself to liability because post-award requirements were not adhered to after veterans were selected.
 - a. The VHP will be a collaborative process that involves the program staff, the veteran, and the contractor. It will be the responsibility of the program staff to ensure accurate and complete records are maintained in a centralized location. The veteran will be required to read or demonstrate understanding of the requirements to become eligible to receive and maintain the home. The contractor will be required to provide warranty documentation on the home and any appliances contained within. The contractor will be additionally required to adhere to established building codes and inspection schedules as required during the construction process. The home will remain the property of the contractor until such time as the home is complete and a final inspection is performed. Keys will not be provided to the veteran until all utilities are connected to the home.
6. With over \$6.4 million spent on the VHP in the first three years, veterans were still dissatisfied with the VHP.
 - a. A variety of factors contributed to poor quality of the final product. Legislation governing the program severely restricted the cost per home for materials and labor, and prohibited spending on infrastructure. Moving forward, the program will work jointly with NTUA, IHS, NHA, and DCD to ensure that infrastructure projects will be able to keep pace with the construction of homes under the VHP. There is also a collaborative effort producing a new home design that will ensure that all new homes

will be built to ADA standards and not require modification in the future. Veterans will be afforded an opportunity to select a built-in-place home with this design or be placed on a separate waiting list for a modular home from a licensed housing manufacturer.

7. Completed veteran homes were not in livable and safe condition.
 - a. Within the building industry, the definition of a completed home is one that is in a safe and livable condition. Moving forward, all homes will be required to obtain a certificate of occupancy prior to being presented to the veteran. Warranty documentation will be in order, and the NNVA will conduct a post construction inspection to verify that the home is complete.
8. Insufficient project communication and tracking led to increased costs, construction delays and dissatisfied veterans.
 - a. Project tracking will become a joint event between the contractor and the VHP staff. Bi-weekly (every two weeks) meetings will be conducted to provide updates on site conditions, project status (including costs), and hiring/training updates.

Section 8. Home Construction Standards

The International Building Code (IBC), established by the International Code Council (ICC) shall be used as the minimum standards to which all projects are designed and built, to include the Americans with Disabilities Act (ADA). Building inspections shall be performed by third-party organizations authorized to perform such inspections by competent authority.

Section 9. Contracting Standards

The NNVA will no longer perform "self-build" for these homes under this program. All work under this program including new construction, major, and minor repairs and renovations will be awarded to Navajo-owned, licensed contracting firms from the states of Arizona, New Mexico, and Utah who are registered with Navajo Nation Business Regulatory Department in accordance with the Procurement Policies and Procedures of the Navajo Nation. The NNVA is authorized to enter into purchase agreements with premanufactured home builders and other vendors in order to fulfill program obligations. All contracts shall abide by the Navajo Nation contracting laws and policies.

Section 10. Accounting Procedures

Accounting, expenditure and cash control procedures will be jointly managed by the VHP staff and OOC General Accounting. Monthly reconciliations will be performed to ensure that field conditions match accounting records to ensure the program is receiving that which it is paying for.

Section 11. Program Implementation

The NNVA is hereby instructed to adhere to the following program steps, only as pertains to the Veterans Housing Program, in order to ensure that the program is properly established and meets the secondary objectives of advocating for veterans in employment and business.

- 1) The NNVA is to submit proposed changes to the Navajo Nation Council on any legislation regarding the Veterans Housing Program, when such existing legislation is unnecessarily vague or inaccurate as to the proper implementation of the program, and the generally accepted construction industry definitions of the terms "house" "home," or "dwelling."

- 2) The NNVA is to contract out all work associated with the Veterans Housing Program. This includes all design, inspection, maintenance, repair, renovation, and new construction contracts. This will ensure that any and all work performed on the program homes will be done by licensed professionals. All RFPs will specify priority consideration to Navajo and Veteran-Owned businesses registered with Navajo Business Regulatory Department.
- 3) All RFPs will specify that the established building codes in the states of Arizona, New Mexico, and Utah will be uniformly applied to all NNVA projects. This standard will be held until such time as the Navajo Nation is able to adopt a uniform building code consisting of regulations from the International Building Code Standards, as applicable to the land and weather conditions found within the boundaries of the Navajo Nation.
- 4) The NNVA will properly advertise any vacant positions within the Veterans Housing Program consistent with the policies governing employment as set forth by the Department of Personnel Management. Veteran preference is required for these positions. The NNVA must make best effort to hire qualified veteran candidates. All records must be maintained documenting the efforts the NNVA undertook to advertise any vacant positions.

Section 12. Rescinding

All other resolutions or portions thereof, inconsistent with this document are hereby rescinded.

Section 13. Amendments

This Housing Action Plan may be amended as required and all amendments shall be approved by the Health, Education, and Human Services Committee as recommended by the Navajo Nation Veterans Advisory Council.

INTRODUCTION

- A. POLICY STATEMENT.** It is the policy of the Navajo Nation Veterans Administration (hereafter referred to as the NNVA) to provide every eligible Navajo Nation Veteran an opportunity to apply for housing assistance under the Navajo Veterans Housing Program with the intent of providing safe, decent, and sanitary housing services.
- B. PURPOSE.** The purpose of the Navajo Nation Veterans Housing Program (NNVHP) is to identify, assess and prioritize the housing needs of Navajo Veterans. The NNVA shall monitor, advocate, promote, and administer NNVA efforts towards housing needs of Navajo Veterans. The NNVHP is to provide and assist with the construction of homes, consistent with applicable industry standards, for Navajo Veterans. Such consideration of homes shall be for qualified Navajo Veterans. These homes are built and provided to the veteran with the intent and understanding that these homes shall remain the property of the qualified veteran.
- C. POSTING OF POLICIES.** A copy of these policies shall be prominently posted in every local NNVA office and shall be provided to all veterans and the general public upon request.
- D. WAIVERS.** Upon determination of good cause, the NNVA Executive Director may waive any provisions of these policies, which will not impede Federal or Tribal statutory requirements. To be consistent with the requirements of the Tribal General Welfare Exclusion Act and applicable Navajo law, the NNVA Executive Director's waiver authority shall not be used to favor members of the governing body of the Nation or other Navajo Nation elected officials. Requests for waiver shall be in writing and clearly indicate the provision of the policies requesting to be waived and shall be supported by documentation of the pertinent facts and grounds. All requests must be submitted to the NNVA Central Administration office for resolution.
- E. TRIBAL GENERAL WELFARE EXCLUSION ACT.** This Program Policy is adopted consistent with the requirements of the Tribal General Welfare Exclusion Act, P.L. 128 Stat. 1883 ("TGWEA"), and related IRS guidance. Consistent with the TGWEA, need is deemed presumed for tribally enrolled members of the Navajo Nation for housing purposes, including veterans eligible for assistance under this policy. Homes provided under this Program shall not be "lavish and extravagant" pursuant to the TGWEA. The size of the home shall be reasonable and appropriate for the size of the family to reside therein. The size, features, and finishes of the home being provided, shall be comparable in nature to homes constructed pursuant to the Navajo Nation's other housing programs funded through NAHASDA or other HUD programs. This Program is available to all Navajo Veterans who satisfy the Eligibility Criteria. The Applicant Screening Listing and Ranking System shall not discriminate in favor of members of the governing body of the Nation or other Navajo Nation elected officials. The screening and ranking system shall not discriminate in favor of Navajo Nation employees, elected officials, or members of the governing body of the Nation. The cumulative total of points determines the applicant's position on the waiting list. Ties are broken by the chronological order of application (date in which the application was received).

Qualification criteria are summarized below. When a veteran completes the application form, they will be asked a series of questions that determine their qualifications relative to the selection criteria. It is very important that veterans (demonstrate understanding of) read and understand the entire application before submitting their screening packet. The local agency office will be available to answer any questions the applicant may have.

Once on the waiting list a veteran may be called in to update their application once a year. Failure to update the application as requested may result in the Veteran being removed from the waiting list. During the update process the information on the application will be verified.

An Eligibility Criteria & Preference Rating Sheet shall be applied to the Navajo Nation Veterans Housing Program.

- B. Ranking System.** The Ranking System shall prioritize applications based on points calculated from supporting documentation provided by the applicant. Each document will have a point value assigned, and such point values may either be fixed, or adjustable based on criteria. Each applicant shall receive a final rating score that totals all of the points awarded based on the supporting documentation. This final score shall be the sole determining factor of the applicant's position on the waiting list. The waiting list shall be adjusted annually to accept new applications, and award additional points to existing applicants based on adjustable point criteria, and any other changes the veteran may have with their supporting documentation. Annually, an applicant's position may move up or down the waiting list based on point values assigned to additional applications received by the program at the beginning of a new assessment period. This system is designed make the process fair and equitable and to prevent outside influence from or advantage to members of the governing body of the Nation or other elected officials.

EXHIBIT 2

Navajo Nation Veterans Administration

Veterans Housing Program

Housing Action Plan

Section 1. Findings

CJY-55-18, An Act Relating to the Establishment of the Navajo Housing Program within the Navajo Veterans Administration, sought to provide “services to Navajo Nation veterans [including] housing programs. It was deemed “necessary that a housing program be created within the Navajo Nation Veterans Administration.”

CJA-03-16 states that it is the responsibility of the Navajo Nation Veterans Administration to effectively and efficiently provide services, including, but not limited to a Veterans Housing Program. To that end, the Navajo Nation Veterans Administration is charged with the management of and is responsible for the day-to-day operations involved with the implementation of the Navajo Nation Veterans Administration Veterans Housing Program.

BFAU-24-17 found that due to inadequate management of the program and improper oversight of the work being performed in the past, houses that were constructed under years 1 & 2 failed to meet the needs of the veterans who were to occupy them.

CS-48-13 found that it was in the best interest of the Navajo Nation and the Navajo people to amend the Navajo Nation Veterans Trust Fund in order to provide equal distribution of the annual comprehensive budgeted amount between the Navajo Nation Veterans Trust Fund and the Navajo Nation Veterans Administration to provide for veterans’ housing for each of the five (5) agencies. The five (5) agencies were to receive an equal share of that amount for the construction of up to fifteen (15) homes equitably in each of their respective agencies using all possible assistance program funds that such veterans may qualify for to construct as many homes as possible and provide minor home renovations and repairs for Navajo Veterans.

Section 2. Purpose

The purpose of the Navajo Nation Veterans Housing Program (NNVHP) is to identify, assess and prioritize the housing needs of Navajo Veterans. The NNVA shall monitor, advocate, promote, and administer NNVA efforts towards housing needs of Navajo Veterans. The NNVHP is to provide and assist with the construction of homes, consistent with applicable industry standards, for Navajo Veterans. Such consideration of homes shall be for qualified Navajo Veterans. These homes are built and provided to the veteran with the intent and understanding that these homes shall remain the property of the qualified veteran.

Section 3. Objectives

The objectives of the Veterans Housing Program are to: 1) Reduce the high number of homeless veterans; 2) Reduce the high amount of substandard and dilapidated veteran housing; 3) Reduce the high amount of overcrowded housing conditions; 4) Create pride in home ownership for the

veteran recipient and their family; 5) Create jobs for veterans through home construction and renovation thereby reducing the unemployment rate among veterans.

Section 4. Authority

The Veterans Housing Program (VHP), through the NNVA Executive Director, is authorized to prioritize the construction of housing based on an approved application screening process, without regard to applicant geographical location, so long as that location remains within the boundaries of the Navajo Nation.

The VHP, through the NNVA Executive Director, is additionally authorized to prioritize the renovations and/or improvements to veterans housing based on an approved application screening process.

The NNVA Executive Director is further authorized to provide program funds in the form of grants to eligible veteran applicants wishing to obtain down payment assistance for the purchase of a new home.

Section 5. Program Personnel

The VHP shall be administered by the NNVA Executive Director. The NNVA shall retain staff suitably trained to perform specified duties under the VHP. Such positions deemed necessary to properly administer, implement, and execute the program shall be funded using program funds. Such positions shall be annotated in the NNVA Plan of Operations. A Program Supervisor 1 position shall be responsible for the daily operations of the program, managing personnel necessary to administer the program, and coordinating with Navajo Nation Divisions, Departments, Programs, and Entities to help ensure the success of the VHP. This position shall be assisted by one (1) Senior Housing Specialist and five (5) Housing Specialists, with one located at each agency office. The Housing Specialists shall be responsible for assisting Veterans within their agency in applying for housing assistance by providing education on the policies and procedures and assist the Veteran with the completion of application packets. Other positions shall be retained as appropriate to perform specialized duties and responsibilities under this program. The NNVA shall document efforts taken to provide veteran preference in employment for these positions.

Section 6. Eligibility Criteria

Navajo veterans who are determined to meet the definition of “Homeless Veteran,” and who possess an honorable discharge, and a valid homesite lease, or equivalent shall be considered eligible to apply under the guidelines and approved policies for this program. Veterans who already own a home and veterans who have obtained prior housing assistance from the Veterans Housing Program or any other governmental housing agency for a new home shall not be eligible to apply. Supporting documentation shall be provided upon request by the NNVA. Those documents may include, but not be limited to: DD-214 or discharge certificate, valid homesite lease (or equivalent), VA disability rating (or other disability rating documents), and family composition paperwork (birth certificates, marriage license), CIB.

Section 7. Sweat Equity

1. All potential candidates to receive a home under this program shall be required to participate in the “Sweat Equity” Program. Each candidate shall perform work on their

home while it is being built. They will have an option to work on the foundation at their home-site, work on the prefabricated panels constructed off-site, or work on the final assembly of their home. Candidates will be required to invest themselves in the construction of their home, as these homes are being provided at no cost to the veteran.

2. Contributions to the Sweat Equity Program do not require that a candidate have working knowledge of home construction. Candidates will only be required to perform tasks that they are physically able to perform and/or willing to perform. If a candidate is experienced as a framer, or has interest in learning the skillset, they may accept duties that will teach or enhance those skills. If the candidate has physical limitations, less strenuous tasks shall be made available such as site clean-up or trash removal.
3. In the event that a candidate is not able to perform any aspect of the Sweat Equity Program, they will be required to have a family member, friend, or members(s) of the Chapter Veterans Organization participate on their behalf.
4. It is the intent of the Sweat Equity Program to help build interest and skills in the building trades to foster economic growth, while providing jobs and housing to Navajo veterans, and develop and foster the pride generally associated with homeownership.

Section 8. Audit Findings & Corrections

1. NNVA was unable to show exactly how money was spent on material for homes under year one of the program because of poor supporting documentation.
 - a. Moving forward, all work on homes under the VHP, as well as homes qualifying for major or minor improvements, repairs, or renovations will be performed by licensed contractors. Contract documents will be maintained by the Program Supervisor. Payments for completed work will be recorded by the Program Supervisor and OOC Contract Accounting and Accounts Payable.
2. Employee application files were incomplete and qualified employees were not hired.
 - a. NNVA staff are required to have a personnel file located in the Central Office, managed and maintained by the office staff. Moving forward with the program, qualified contractors will be responsible for recruiting and training veteran candidates, and providing documentation detailing their efforts and results towards that end.
3. Contrary to the intent of the VHP, non-veterans were hired.
 - a. The Navajo Nation, the Veterans Administration, and qualified contractors can and will advertise open positions with veteran preference. If those positions do not offer proper incentives such as competitive wages, training, and benefits, then the positions are not appealing to veterans. Additionally, if the veterans are suffering from medical conditions, those conditions could prohibit them from being able to perform the demanding tasks involved with the construction of a home. Therefore, it is not reasonable for the program to assume, nor require, that all open positions be filled by veterans.
4. The VHP did not have supporting documentation showing that only eligible veterans were assisted through the program, and in some cases, people that were not eligible received a home.

- a. Moving forward, under the new guidelines of the VHP Housing Action Plan and the Housing Policies, all candidates currently awaiting approval will be required to be rescreened prior to having a home awarded. Future applicants will be able to apply and be screened using these same guidelines. The focus of the program was, and always will be, to provide new homes to *homeless* veterans, and to provide renovations and repairs to qualified veteran applicants.
5. The VHP exposes itself to liability because post-award requirements were not adhered to after veterans were selected.
 - a. The VHP will be a collaborative process that involves the program staff, the veteran, and the contractor. It will be the responsibility of the program staff to ensure accurate and complete records are maintained in a centralized location. The veteran will be required to read or demonstrate understanding of the requirements to become eligible to receive and maintain the home. The contractor will be required to provide warranty documentation on the home and any appliances contained within. The contractor will be additionally required to adhere to established building codes and inspection schedules as required during the construction process. The home will remain the property of the contractor until such time as the home is complete and a final inspection is performed. Keys will not be provided to the veteran until all utilities are connected to the home.
6. With over \$6.4 million spent on the VHP in the first three years, veterans were still dissatisfied with the VHP.
 - a. A variety of factors contributed to poor quality of the final product. Legislation governing the program severely restricted the cost per home for materials and labor, and prohibited spending on infrastructure. Moving forward, the program will work jointly with NTUA, IHS, NHA, and DCD to ensure that infrastructure projects will be able to keep pace with the construction of homes under the VHP. There is also a collaborative effort producing a new home design that will ensure that all new homes will be built to ADA standards and not require modification in the future. Veterans will be afforded an opportunity to select a built-in-place home with this design or be placed on a separate waiting list for a modular home from a licensed housing manufacturer.
7. Completed veteran homes were not in livable and safe condition.
 - a. Within the building industry, the definition of a completed home is one that is in a safe and livable condition. Moving forward, all homes will be required to obtain a certificate of occupancy prior to being presented to the veteran. Warranty documentation will be in order, and the NNVA will conduct a post construction inspection to verify that the home is complete.
8. Insufficient project communication and tracking led to increased costs, construction delays and dissatisfied veterans.
 - a. Project tracking will become a joint event between the contractor and the VHP staff. Bi-weekly (every two weeks) meetings will be conducted to provide updates on site conditions, project status (including costs), and hiring/training updates.

Section 9. Home Construction Standards

The International Building Code (IBC), established by the International Code Council (ICC) shall be used as the minimum standards to which all projects are designed and built, to include the Americans with Disabilities Act (ADA). Building inspections shall be performed by third-party organizations authorized to perform such inspections by competent authority. The home cannot be lavish or extravagant under the circumstances, as related to size, features, and finishes.

Section 10. Contracting Standards

The NNVA will no longer perform “self-build” for these homes under this program. All work under this program including new construction, major, and minor repairs and renovations will be awarded to Navajo-owned, licensed contracting firms from the states of Arizona, New Mexico, and Utah who are registered with Navajo Nation Business Regulatory Department in accordance with the Procurement Policies and Procedures of the Navajo Nation. The NNVA is authorized to enter into purchase agreements with premanufactured home builders and other vendors in order to fulfill program obligations. All contracts shall abide by the Navajo Nation contracting laws and policies.

Section 11. Accounting Procedures

Accounting, expenditure and cash control procedures will be jointly managed by the VHP staff and OOC General Accounting. Monthly reconciliations will be performed to ensure that field conditions match accounting records to ensure the program is receiving that which it is paying for.

Section 12. Program Implementation

The NNVA is hereby instructed to adhere to the following program steps, only as pertains to the Veterans Housing Program, in order to ensure that the program is properly established and meets the secondary objectives of advocating for veterans in employment and business.

- 1) The NNVA is to submit proposed changes to the Navajo Nation Council on any legislation regarding the Veterans Housing Program, when such existing legislation is unnecessarily vague or inaccurate as to the proper implementation of the program, and the generally accepted construction industry definitions of the terms “house” “home,” or “dwelling.”
- 2) The NNVA is to contract out all work associated with the Veterans Housing Program. This includes all design, inspection, maintenance, repair, renovation, and new construction contracts. This will ensure that any and all work performed on the program homes will be done by licensed professionals. All RFPs will specify priority consideration to Navajo and Veteran-Owned businesses registered with Navajo Business Regulatory Department.
- 3) All RFPs will specify that the established building codes in the states of Arizona, New Mexico, and Utah will be uniformly applied to all NNVA projects. This standard will be held until such time as the Navajo Nation is able to adopt a uniform building code consisting of regulations from the International Building Code Standards, as applicable to the land and weather conditions found within the boundaries of the Navajo Nation.
- 4) The NNVA will properly advertise any vacant positions within the Veterans Housing Program consistent with the policies governing employment as set forth by the Department of Personnel Management. Veteran preference is required for these positions. The NNVA must make best effort to hire qualified veteran candidates. All records must be maintained documenting the efforts the NNVA undertook to advertise any vacant positions.

Section 13. Rescinding

All other resolutions or portions thereof, inconsistent with this document are hereby rescinded.

Section 14. Amendments

This Housing Action Plan may be amended as required and all amendments shall be approved by the Health, Education and Human Services Committee as recommended by the Navajo Nation Advisory Council.
